The BCi4 camera is a very compact, high-resolution CMOS camera. The camera is equipped with the Ibis4 image sensor. With 7 µm square pixels, the user can define any Window Of Interest within a 1280 x 1024 pixel area, also known as the SXGA format. A separate Line Scan Mode complements the operation of this versatile camera. The sensor has a remarkably good signal-to-noise ratio in combination with excellent contrast performance. Also the dark current of the sensor is much lower than in classical CMOS image sensors allowing longer exposure times.

The image sensor has excellent contrast coupled to a high linear dynamic range. By programming the “Well Enhancement” the user can extend the dynamic range further. The saturation range covers more than 80dB with a non-linear upper curve.

The digital camera operates in single shot mode, which makes it ideal for machine vision applications. In this mode, the user has the freedom to decide when the camera has to capture an image, not the other way around, as is the case with most analogue camera systems. Continuous capture mode for area-scan or line-scan is also supported. The n-line scan operation allows selecting vertical segments on the sensor.

The in-camera memory of 8Mbytes is used as image FIFO in USB2.0 and IEEE-1394 interfaces and can be used with custom camera logic for other purposes, such as reference image, camera calibration data…

C-Cam Technologies supply several standard interfaces: Serial LVDS, USB 2.0, IEEE-1394 or Camera Link. The Camera Link and Serial LVDS interfaces allow for remote triggering via the interface cable. They also have a local trigger input and output. The IEEE-1394 and USB 2.0 versions have local trigger input and output. The IEEE-1394 camera is IIDC/DCAM 1.30 compliant.

The BCi4 comes with Drivers and DLL files and sample code in Visual C (Windows 98,Me, 2000 and NT4.0). Software engineers can easily adapt the code to integrate into their own applications. Include-files for Visual Basic and Delphi are supplied.
BCi4 CMOS Camera

Sensor Specifications

- **Imager type**: CMOS integrating active pixel sensor (APS) IBIS4 by FillFactory with on-chip non-uniformity correction
- **Sensor types**: Monochrome or colour in diagonal RGB pattern
- **Total pixels**: 1,324,580 (1286H x 1030V)
- **Total light-sensitive pixels**: 1,310,720 (1280H x 1024V)
- **Window Of Interest (WOI)**: Any rectangle image format specified by the user
- **Active image area**: 8.96mm (H) x 7.17mm (V)
- **Pixel pitch**: 7 x 7 µm
- **Fill factor**: 60 % (no microlenses)
- **Spectral response**: More than 30 %
- **Temporal noise**: 20 electrons, 500 µV RMS
- **Well capacity**: more than 75,000 electrons (55,000 linear range)
- **Enhanced Full Well**: programmable up to 64000 electrons (linear range)
- **Dark current signal**: 787 electrons/sec.@ 21°C
- **Avg. auto-saturation time**: 51 seconds @ 21°C
- **Dark current**: 255 pA/cm² @ 21°C
- **Blooming suppression**: 1 x 10⁵
- **Smear**: None
- **Dynamic range**: std. 68 dB (55,000/20 = 2750:1) linear
- **High dynamic range**: 100 dB in Limited Exposure Technology (LET) mode
- **Grey level resolution**: 8 bits = 256 grey levels or 10 bits = 1024 grey levels or 12 bits = 4096 grey levels
- **MTF**: 0.4 - 0.5 @ 450 nm
- **PRNU**: 10% p/p with 1/2 saturation

Image Specifications

- **Pixel rate**: 20 MHz (full resolution)
- **Frame speed**: Approx. 14 frames/second continuous mode
- **Shutter**: On-chip electronic shutter rolling curtain type
- **Shutter synchronisation**: Remote via software or via cable. Local via I/O interface
- **Maximum Exposure time**: 200 msec
- **Minimum exposure time**: 2 lines, 135 µsec typical at 20 MHz

In-camera Resources

- **Memory**: 8Mbytes
- **FPGA Logic**: 100 k gates

Interface Specifications

- **Interface type**: Serial LVDS, USB 2.0, IEEE-1394, Camera Link
- **Interface connector**: LVDS Binder 712 series 7-pole, USB 2.0 Binder 712 series 4-pole, IEEE-1394 std. 6-pole
- **Camera Link**: MDR26p
- **Remote Trigger**: via LVDS or Camera Link interface
- **Local Trigger**: Isolated, 1 input, 1 output
- **Local Trigger Connector**: Binder 712 series 3-pole

Mechanical Specifications

- **Dimensions**: (not incl. lens) LVDS, Camera Link, USB 50 x 50 x 53 mm, IEEE-1394 50 x 50 x 62 mm
- **Weight**: < 200 grams (not incl. lens)
- **Housing**: Aluminium black anodised stainless steel, adjustable
- **Lens adapter**: C-mount standard
- **Tripod mount**: 1/4 inch mount (1 off)
- **Machine mount**: M6 x 1 (2 x 2 off)

Environmental Requirements

- **Operating temperature**: 0°C to +50°C
- **Storage temperature**: -30°C to +80°C (non-condensing conditions)

Power Requirements

- **LVDS, IEEE-1394, USB**: Power supply through Interface cable
- **Camera Link**: 8 - 12 Volts via separate Binder 712 series 2-pole connector
- **Power consumption**: < 2 Watt
